10 Indicates whether a horse is well handicapped against its official rating (OR) in a handicap of the same race type. If todays OR is higher than horses highest winning OR (HiOR) the chart indicates **Red**. If todays OR is below the horses highest winning OR (HiOR) the chart indicates **Green**. The figure to the right indicates the number of pounds the official rating is above or below HiOR.

Fate of Favourites and is a statistics due to luck?

Similar to the method used in the trainer/jockey statistics tables, the statistical performance of 1st and 2nd favourites are provided given the same race conditions.

1

In the example, 1st favourites perform 20 % above expected
2nd favourites perform 10% less than expected

2nd Fav	9-18-46 (20%)	9.6	0.9	●	0.04

“The CHI” table below provide a reference (not included in race guide) for this column found in other race guide tables

The stat will determine if a sequence of events was due to chance or due to a deterministic set of circumstance.

A CHI value which is greater than or equal to 3 would suggest that there is less than a 8% chance the statistic was down to pure luck.
